Profile

A creative and hard-working individual with an enthusiastic passion in architecture, art and design. Seeking a position as Junior interior design. Committed to bring creative ideas and vibrant perspective into the design. Highly skilled in sketching, idea testing and keen eye for detailing. Have a strong talent in problem-solving skill and consideration of customer experiences with a sensitive to material approach to delivering fascinating ideas to meet the client satisfaction and requirement. Eager to create creative aesthetic designs with functional and sustainable keys. Always willing to learn and develop new skills to improve work performance in a professional design world. Design thinking and a deep understanding in the planning of commercial and domestic interiors have developed through university projects with an excellent ability to utilise Vectorworks, SketchUp and Adobe suite for successful creations of ideas.

Experience

Live project

live brief project with Smithfield estate
Shortlisted RSA Design awards 2021

The brief of this project was to redesign the Smithfield estate in accordance with promoting healthier residence environments through ageing-in-place, sustainability and adaptability features. A passive house design strategy and adaptable space were used to develop this project. The project also taught me to bring a sense of community, embrace innovative design with the uniqueness of existing materials in the Smithfield area.

Second Year live brief project with IKEA 2021

A cross-discipline collaboration project to create a design proposal for IKEA Manchester. A sustainable approach and Design hacks were the main keys to this project. Communication and Teamwork skills are developed through collaboration with graphic design, product design and illustration students.

live brief with Thebody shop as part of RDE awards 2021

The brief was to create a pop-up store for The Body Shop. The project taught me to deliver an immersive and unique brand experience. The solution was to create a sustainable and flexible pop-up structure with digital intervention experiences.

Internships

APA architecture, Design and consultant 2020
Vientiane, Laos

This design firm specializes in residential architecture, engineering work and urban planning. There wasn't any interior work during the period of my internship. Therefore, I assisted in the physical model making of the urban plan, and interior site checklist for the ongoing construction project and helps in creating 3D models of the building.

Lines Magazine Art-design and inspiration 2020
Vientiane, Laos

My role was to assist the senior manager in architects' interviews, graphic design, architecture photography, videography, and content creation. I had joined their Lines class to improve my digital skills, teamwork and managing interactive skills. I also assisted in event planning such as Lao architecture and professional value talks. Working with Lines, helped me widen my perspective on creative design careers, gained professional skills and was inspired by several architects' talks.
